PROFESSIONAL PROFILE

Multidisciplinary designer working across UI/UX, games, 3D art, and digital products. Co-founder of Adimensional 3D, with hands-on experience in product design, branding, and e-commerce. In Unity, I design and implement user interfaces, interactive mechanics, animation, and visual assets, bringing together design and technical production.

EXPERIENCE

T15 STUDIO | Game development team **2026–Present**

UI/UX Design · Game/Technical Art · Unity Implementation

- Designed and implemented the HUD, menus, objectives system, and interaction feedback for El Último Turno, a first-person psychological horror game developed in Unity.
- Implemented and refined drink-serving and cleaning interactions; created enemy rigging, animations, and encounters, as well as environment art, lighting, and shaders using Unity and Blender.
- The project was selected by UTN for EVA 2026; contributed to production, visual communications, and the playable demo trailer.

ADIMENSIONAL 3D | Design business **2020–Present**

Co-founder · Product & Creative Design

- Develop products for 3D printing using Blender, from research and concept to modeling, rendering, and launch; prioritize support-free designs with fewer parts.
- Develop brand identity, packaging, and e-commerce UX; produce product photography, renders, campaigns, and visual content for digital channels.
- Handle customer inquiries, after-sales support, and B2B requests, using customer feedback to improve products and the shopping experience.

GET A GAME | Independent project **2022–2023**

Co-founder · UI/UX, Game Art & Production

- Created UI, game art, visual identity, release assets, and testing for two Android puzzle games (Magic Tap Away and 2048), published on Google Play.

SELECTED PROJECTS

L'Aereo (CLIENT PROJECT) | UX/UI design for a client website, including visual direction, content organization, and interface structure.

UNITY GAMES | Designed and developed Greta la Fugazzeta, Greta y el Jardín Japonés, and Salty y Muffin as playable academic projects.

PORTFOLIO WEBSITE | Designed and built a website using React, JavaScript, and CSS, with interactive components and animations.

EDUCATION

University Technical Degree in Game Development & Production — UTN BA — In progress

University Technical Degree in Business Administration — UTN BA — Graduated 2026

Industrial Engineering — UTN Córdoba — 2 years completed

TECHNICAL SKILLS
